FALL OF 1899—AND—SPRING OF 1900.

WHOLESALE TRADE LIST

OF
SOUTHWICK
NURSERIES

EDWARD GILLETT,

Southwick, Mass., U. S. A.

Hardy Ferns and Flowers,

ROSES, SHRUBS, VINES,

Aquatic and Bog Plants, Orchids, Herbaceous Perennials, Etc.

This is to certify that I have made an examination of the nursery stock belonging to the Southwick Nurseries, owned by Edward Gillett, at Southwick, Mass., and find no evidence of the San Jose scale, or other dangerously injurious insects.

Southwick, Mass., August 25, 1899.

A. H. KIRKLAND.

Massachusetts has no law relating to the inspection of nursery stock, but owing to the presence of the San Jose scale in so many sections of the country I have thought it best to have my nursery inspected, and was very fortunate in securing the services of Mr. A. H. Kirkland, well-known throughout the State as being connected with the Hatch Exp. Station at Amherst, and the Gypsy Moth Comm. I am glad that so far there has been no indication of these insect pests in my nursery.

EDWARD GILLETT.

Southwick, Mass., August 25, 1899.

Location

It is situated on the line of the New Haven & Northampton division of the N. Y., N. H. & H. R. R., 5 miles south of Westfield, Mass., junction of the Boston & Albany R. R.; 100 miles west of Boston, and 100 miles north of New York.

Goods by express reach New York or Boston within five hours after shipment, and the cost of carriage to all points from here is comparatively light. Freight goes through to New York without change.

TERMS.

Prices are in American money. Six at dozen rates, 50 at 100 rates, 500 at 1000 rates. Packing at cost.

One dollar is equal in value to a trifle more than four English shillings, four German marks, or five francs.

All bills will be due upon receipt of goods, unless by special agreements. Unknown parties should give good references.

Remit by draft on New York, or by Post-Office Order on Southwick, Mass. *Foreign Remittances by International Post-Office Orders on Westfield, Mass.*

The packing season commences as soon as the plants can be got at in spring, about April 10, and lasts about six weeks, and in autumn as soon as the plants are ripe, mostly from September until December.

Address all communications to

EDWARD GILLETT,

SOUTHWICK, MASS., U. S. A.

Deciduous Shrubs and Trees.

"MIELLEZ'S REVELATION"—In Lily of the Valley. It is of extraordinary size and vigor, of the most exquisite fragrance, and does well under all conditions and all sorts of soils, growing just as well in full sun as partial shade, and is extremely hardy, and while not increasing quite as fast as the common kinds is still of good increase. It is well to cover it in December with a good coat of barnyard manure—cow or horse—green is just as good as old. Leave it in the spring to serve as mulch. The Massachusetts Horticultural Society awarded it a "First Class Certificate of Merit" on May 22d, 1897. \$1.00 per dozen. \$4.00 per hundred.

Caulophyllum <i>thalictroides</i> (Blue Cohosh),	75	4 00	
Chelone <i>glabra</i> (Snake-head). White flowers, Coll.,	75	4 00
